Subject: RE: EHC study protocol for review

Dear Hans,

Thank you for the draft protocol. I have attached a file with several comments to the protocol draft and look forward to being able to review a complete protocol when available. If you require any of the referenced publications I will be glad to send them (please be aware of the fact that I will be out of the office on Friday 11th).

Best regards,
Tony

Subject: EHC study protocol for review

Dear colleagues,

in the attachment you find the final draft version of the US EHC protocol for your review. I appreciate your comments not later than May 11, otherwise we may not be able to use them. Please use the Microsoft track changes option unless you want to give a small number of comments only. Needless to say that no all thoughts and ideas can be written down in a protocol. Please give me a call in case of questions. (804-274-3165)
Best regards

Hans
